

# Help for the foreign workers with or without papers!

The Trade union members of Solidaires 49 are available every Tuesday from 5pm to 8pm to support the foreign workers in Maine et Loire so that they can fight for their rights and be helped to face their employers and the préfecture!

Illegal workers represent a precarious labour often subjected to unbearable abuses, yet they have the same rights as other workers.

Here the aims of this weekly reception :

Guidance and accompanying for the procedures at the préfecture, particularly concerning the extension of the residence working permit and the sorting out of the illegal migrants thanks to a job.

Information and accompanying for the procedures concerning the fundamental rights as the opening of a bank account, the claiming for medical aid (AME)...

enforcement of the employment laws :the Trade union can help you to claim your payslips, the payment of your wages and extra hours, strike...

A yearly tax meeting is held by some agents of the Public Finances in order to help you to fill in your tax return even though they work part time, illicitly or are on the dole. After filling this tax form you receive a tax assessment which is an important proof to sort out your regularisation case.

***Borders and origins can't be obstacles to solidarity and unity  
between workers !  
Proletarians from all countries let's be united !***
